

Expectations - MOP February 2016

Title of Session: Expectations

Facilitator: Ken Guenther

Expectations

Description:

This is an introductory session where we explore participant's expectations for our MOP program and then connect that to their expectations for their anticipated first 4-year term of missionary service. When expectations for ministering cross culturally collide with the realities of daily life and work in a foreign culture missionaries many times experience disappointment. This session will help participants identify their personal expectations for their first term and discuss healthy ways to deal with unmet expectations.

Objectives:

1. Each participant will identify personal expectations for their first term of service as it relates to a list of potential culture stressors.
2. Each participant will be able discuss ways to deal with unmet expectations.

Handouts for Expectations:

- [Expectations \(Word\)](#)
- [Following Jesus is full of surprises](#) (passages in Matthew about expectations)
