## Objectives for Home Service

- [Objectives Form](#)
- Return draft objectives via email to Becca Schlacht <mailto:bschlacht@send.org> or via secure email to [bls@tedu.co](mailto:bls@tedu.co). Final copy should also be submitted after it has been approved by field leadership.

What would you like to be working on or to accomplish while on home service in the areas of your spiritual formation, personal health and growth, professional development? If you have developed an Individual Growth Plan ( IGP Guide ), you can incorporate these goals into your home service plan. We find that people tend to view home service as a time to raise support and deal with SEND requirements, but we encourage our members to think more holistically. What do you need to learn, receive or experience in order to be well positioned to thrive and be fruitful during your next term on the field? For some, this may focus on training. For others, it may focus more on rest and renewal or even some counseling.

Below are some ideas to consider as you decide on your objectives. Some are required and are noted as such. It is also helpful to seek input from your supervisor and any mentors you have. Once you have your draft together, be sure to get it approved by your director or field personnel coordinator since it will function as your home service job description.
